

## Project Description:

Connect Technology Group was contracted for a design to build installation for Nuvodesk, a Co- working facility in Grand Prairie. This \$400,000 project consisted of Security/ Audio/Visual and Structured Cabling. Security consisted of 20+ Access Control card readers and interior/ exterior security cameras. Audio/video included room schedulers, displays and sound masking. Structured Cabling consisted 200+ test, tone and labeled cables and a telecommunication room with a custom LED rack for an extra pop of color to match the bold Nuvodesk logo.

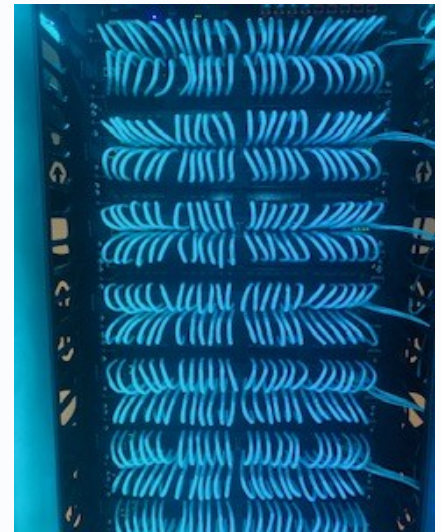

## Featured Products:

OWLLabs Owl 360 video conferencing all in one camera, microphone, and speaker.

Custom LED lighting

Custom Aqua Cat 6 Cable & Fiber
